EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Matthew Mietzel on 12 February 2008.

The application has been amended as follows:

Claim 1. (Currently amended) A machining system having a machining envelope, the machining system comprising: a housing defining at least a portion of the machining envelope, a bottom portion of the housing having an access port; a hopper having a top surface defining an opening, the hopper adapted to be inserted through the access port into the bottom portion of the housing; and a seal extending from the top surface to the housing such that the seal is spaced apart from and does not extend into the opening and such that the seal extends completely around the opening; wherein the hopper is configured to receive particulates when positioned below the machining envelope.

Claims 9-16. (Cancelled)

Allowable Subject Matter

2. Claims 1-8 and 17-20 are allowed. Claims 1 and 17 are the independent claims.
3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Patent Publication 2001/0011055 A1 to Kuriki et al. and U.S. Patent 6,116,616 to Bratten, which were applied to the claims in the office actions mailed 14 September 2007 and 16 January 2008. Suffice it to say, the patent to Kuriki et al. does not disclose "a bottom portion of the housing having an access port" or "the hopper adapted to be inserted through the access port into the bottom portion of the housing" as claimed in independent claim 1, and the patent publication to Bratten does not disclose "a seal disposed on the top surface such that the seal extends completely around and is spaced apart from the second aperture" as claimed in independent claim 17, and as such do not anticipate the instant invention as disclosed in independent claims 1 and 17.

Furthermore, there is no combinable teaching in the prior art of record that would reasonably motivate one having ordinary skill in the art to so modify the teachings of Bratten and Kuriki et al., and thus, for at least the foregoing reasoning, the prior art of record does not render obvious the present invention as set forth in independent claims 1 and 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ERIC A. GATES whose telephone number is (571)272-5498. The examiner can normally be reached on Mon-Thurs 8:45 - 6:15.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Monica Carter can be reached on (571) 272-4475. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
